

Guidance remains the same.

But now we also have a vaccine.

Winnie has been designated as the SCS Response Coordinator for the Covid-19 pandemic.

A sample of the SCS Assisted Living Infection Control Checklist follows

ASSISTED LIVING INFECTION CONTROL COMPETENCY CHECKLIST

Adherence: A minimum Score of 25 (Including all Core Competencies).

Non- Adherence – Score of less than 25 points and **any** missed core competency.

Items in RED are the Core Competencies

Checklist

Competency	Met	Not Met
Designated Infection Control lead individual is identified as responsible for infection control, and who has infection control knowledge and training, and keeps abreast of COVID updates from government agencies.		
Signage is posted at entry point for ALL entering the ALF to wear facemask prior to entering and to postpone visit if experiencing signs and symptoms consistent with COVID 19.		
<i>Residents have a daily symptom and temperature check by a trained staff member, and results are documented. Residents with suspected or confirmed COVID 19 status have vitals checked twice daily during day and evening hours at a minimum. Residents with worsening symptoms are transferred timely to the hospital for further medical management.</i>
